Although abortion is legal (well, legal on condition) in Zambia, access to safe abortion services is severely limited as a result of provider biases, limited information among women about the TOP Act, legal requirements, the limited number of sites that perform the procedure, and social and religious sentiments against abortion. According to the International Conference on Population and Development (ICPD), reproductive health care in the context of primary health care includes, at a minimum, safe abortion services, where legal, and the management of abortion-related complications

L'orgasme féminin n'est pas utile le but du sexe n'est pas de jouir L'orgasme féminin c'est important pour personne Bienvenue chez les hommes préhistoriques. Personnellement si je simule c'est que je n'ai pas la tte a ou que mon partenaire s'y prend comme un manche et, comme la plupart des filles je pense, je n'ai pas trop envie de refaire l'éducation sexuelle dudit partenaire. J'aime beaucoup les personnes qui commentent en disant que la fille doit dire que a ne vient pas et on arrte tout pour faire un clin. Déj c'est trs difficile de dire son partenaire que a ne vient pas et c'est trs frustrant. Je pense que vous oubliez aussi de préciser, elle me dit que a ne vient pas, je jouis et ensuite on arrte pour faire un clin. Je trouve a triste que les femmes se sentent encore obligées de simuler pour, la plupart du temps, ne pas décevoir son partenaire.
