| 13 | skelaxin equivalent         | This new scale is widely different to the current system of classification in place in the UK and the authors claim that it is much more accurate and relevant, as: "the present drug classification systems have little relation to the evidence of harm." The paper also states, regarding their findings: "They also accord with the conclusions of previous expert reports, that aggressively targeting alcohol harms is a valid and necessary |

public health strategy.” It was Professor Nutt who, in 2007 and while still holding his government advisor role, tried to introduce the same new ranking system to the UK
