Should I put more weight on it? My heel is about 1 1/2 inches from the bottom of the boot which concerns me - should I adjust the cam so that the gap is a lot less and try to go down a little bit at a time rather than leave a 1.5? gap? I have always been as stiff as a board which the doctor confirmed after surgery and wonder if it will make stretching the tendon out a challenge

The future for drug discovery is pretty bleak as the costs of trying to get drugs on the market has gone up, the ability to market those drugs has gone down, the risks of marketing drugs has gone up (where do you think all the money to the state’s AG’s comes from? Also, tort lawsuits cost a lot of money, that comes from somewhere as well) and the return goes down as pricing pressures increase globally
